## TECHNICAL SKILLS

|            |               |
|------------|---------------|
| JavaScript | TypeScript    |
| Python     | Go (beginner) |
| React.js   | Next.js       |
| Nest.js    | FastAPI       |
| Django     | TailwindCSS   |
| Ant Design | Docker        |
| Kubernetes | Microservices |

## EDUCATION

**B.Sc. in CSE** 2016 - 2020  
Daffodil International University

**Diploma in Computer Engineering** 2012 - 2016  
Meherpur College of Eng. & Tech.

**SSC** 2010 - 2012  
Kobi Nazrul Shikkha Manzil

## LANGUAGES

Bengali Native  
English Conversational

## INTERESTS

Open Source DevOps System Design UI/UX  
Cloud Ollama Golang CI/CD Automation  
Performance

## PROFESSIONAL SUMMARY

Results-driven Senior Software Specialist with 5+ years of hands-on experience building enterprise-grade web applications. Specialized in full-stack development with Next.js, NestJS, and TypeScript ecosystems. Proven track record of architecting scalable ERP systems, establishing CI/CD pipelines, and leading frontend architecture standards across cross-functional teams.

## EXPERIENCE

### Senior Software Specialist

Jan 2026 - Present

SSL Wireless Ltd. — Borak Zahir Tower, Kawran Bazar, Dhaka 1205

- Architect Zommerz (E-Commerce SaaS) — Multi-tenant E-Commerce Builder & Merchant Store Setup with custom themes, 4-step onboarding, and 36+ payment channels.
- Spearhead full-stack Textile ERP systems (Production Planning, Manufacturing & Inventory) using Next.js 16, NestJS, and TypeScript.
- Establish frontend architecture standards with Ant Design and TailwindCSS, and configure CI/CD pipelines with Docker and Kubernetes.

Next.js 16 NestJS TypeScript Ant Design TailwindCSS Docker

### Software Specialist

Oct 2023 - Dec 2025

SSL Wireless Ltd. — Borak Zahir Tower, Kawran Bazar, Dhaka 1205

- Delivered full-stack Enterprise ERP modules for Textile Manufacturing, Production Planning, and Inventory using Next.js 14, NestJS, and TypeScript.
- Engineered SSL Wireless LMS (Digital Learning Platform) features, building responsive Ant Design interfaces and performant REST APIs.
- Developed modular UI component systems with TailwindCSS & Redux Toolkit, and automated CI/CD pipelines with Docker and GitHub Actions.

Next.js 14 NestJS TypeScript Ant Design TailwindCSS Docker

### Software Engineer

Nov 2022 - Oct 2023

APSYS Ltd. — Ahmed Tower, 30 Kemal Ataturk Ave, Dhaka 1213

- Delivered full-stack Enterprise ERP solutions and business operations workflows using Next.js and NestJS.
- Architected scalable RESTful APIs and microservices using NestJS with Knex ORM.
- Implemented responsive UI components using Ant Design and TailwindCSS with Redis caching.

Next.js NestJS TypeScript Ant Design TailwindCSS PostgreSQL

### Software Engineer

Nov 2021 - Nov 2022

mPower Social Enterprises Ltd. — Level 10 House 77, Nur Empori, Road 11 Banani Bridge, Dhaka 1213

- Led frontend engineering for Enterprise Solutions across Procurement, Transportation & Inventory Management.
- Built digital Agriculture platforms for Crop Planning, Seed Recommendations, Weather-based Advisory & Livestock AI.
- Standardized reusable Material-UI design systems and established scalable Redux state management patterns.

React.js NestJS TypeScript Material-UI Redux Jest

### Associate Software Engineer

Jul 2021 - Nov 2021 (Internship)

ROTech Ltd. — Komlapur, Dhaka

- Developed Textile ERP modules covering MRP, Multi-level BOM (Bill of Materials), and Material Planning.
- Automated Procurement workflows for Purchase Requirements and Purchase Order generation using Django REST framework.
- Implemented responsive frontend interfaces with HTML5, CSS3, and JavaScript.

Python Django HTML5/CSS3 JavaScript PostgreSQL Git

## KEY PROJECTS

### VS Code Extension — QuickDB

DataGrip-inspired database management extension for Visual Studio Code.

TypeScript VS Code API Node.js SQL

[View Project ↗](#)

### Built Zommerz (E-commerce SaaS)

Multi-tenant e-commerce builder platform empowering merchants to customize stores, manage products, and launch in minutes.

Next.js Nest.js TypeScript TailwindCSS

[View Project ↗](#)

### SSL Wireless LMS (E-Learning SaaS)

Built a SaaS e-learning platform for SSL Wireless.

Next.js Nest.js

[View Project ↗](#)

### CLI Tool — Quick Dockerize (quick-cicd)

Automated CLI tool to containerize projects (Docker) and scaffold production CI/CD workflows for React, Next.js, NestJS, and Laravel.

Node.js TypeScript Docker GitHub Actions

[View Project ↗](#)

## DOMAIN EXPERTISE & CONTRIBUTIONS

### INDUSTRY DOMAINS

Enterprise ERP Textile MRP & BOM E-Commerce (Zommerz) E-Learning (LMS) Procurement & Inventory  
Agriculture & AI

### OPEN SOURCE CONTRIBUTIONS

- QuickDB** — VS Code extension for multi-database management (MySQL, PostgreSQL, MongoDB, Redis, SQLite) with Query Builder, AI query generation & MCP server.
- Published **3 npm packages** — ESLint/Prettier configs, Quick UI Design scaffolding, Quick Dockerize CLI tool.
